* Description					
* Description	<p>This course is a mandatory course for sophomore students of English major during the third semester. It aims to help students develop English viewing, listening and speaking skills, improve their English listening comprehension and oral ability, and enhance their critical thinking and analytical abilities. In addition to general types of viewing, listening, and speaking tasks (such as listening to, understanding, and comparing newscasts and other audio and video clips and engaging in unscripted interpersonal conversations) the course will emphasize viewing, listening, and speaking skills that coincide with your (student) needs and interests. These needs and interests will be determined at the beginning of the course and will help shape the emphasis of the remainder of the course. Appropriate reading selections will also be assigned, which will provide models for the course’s writing assignments.</p>
