Course Name	English Academic Writing							
(Course Type)								

Audience

School	School of Foreign Languages							
Prerequisite								
Instructor	(Course Webpage)							
* Description								
* Description	This is a compulsory course for third-year students majoring in translation and a preparation for their undergraduate thesis writing. The course aims to help students understand the requirements of research paper writing, master its basic skills, and lay a solid foundation for the writing of their graduation thesis. Moreover, the course develops students' academic literacy, enhances their thinking ability and improves their ability of English language use. The course covers the following topics: similarities between essay writing and research paper writing, classification of research papers, steps in research paper writing, plagiarism, how to avoid plagiarism, how to write a paraphrase and a summary, citation, basics of a research paper format, language style of a research paper, etc.
